A Guide to Protecting the Ocean as a

Wahoo Bay Ambassador

WahooBay

Hello!

We are Wahoo Bay

A Living Laboratory for Community Conservation.

We have brought together partners from local government, researchers from local universities and community leaders to help find new ways to protect and restore our coastlines and improve our oceans.

Our goal is to help educate others about the health of our oceans and provide a model for other coastal communities.

Our efforts are volunteer-based. Without the help of ocean lovers like you, we cannot protect the animals and plants that call Wahoo Bay home. We look forward to breaking waves with you and hope to see you at Wahoo Bay very soon!

Being an Ambassador

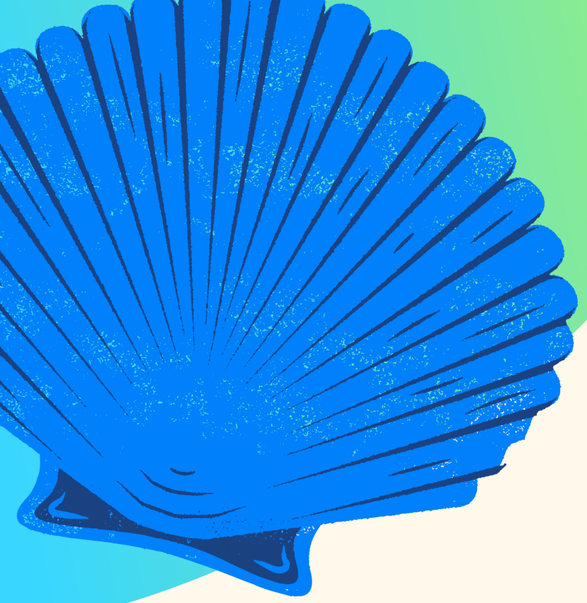

1. All ambassadors must attend an orientation. This provides volunteers with an overview of the site's history and ambassador opportunities

2. After attending the orientation you will be able to schedule your Ambassador Time via our Ambassador Calendar.

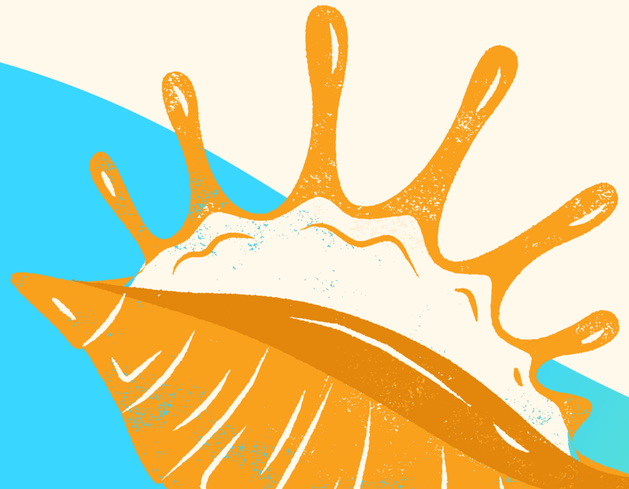

3. We are lucky to have talented and passionate ambassadors with lots of different skills. Please consider Wahoo Bay your home. We aim to support all ambassador ideas and initiatives to help educate and encourage others to get involved. If you have ideas, please share them and we will help make it happen!
